

# LA 100 A

DECENTRALISED

PRODUCT-NO.: 205771

## Turn every space into an oasis of fresh air

This fan unit is highly attuned to stale air. To be precise, the appliance is equipped with a sensor. It determines when the room needs ventilating. Humidity and the prevailing temperature also influence the exchange of air.

## Bringing flexibility to air exchange

For extra convenience, all models are equipped with switch-on delay and run-on time functions, and can also be extended with a humidity sensor. These allow you to define when air exchange should start and stop. This is a useful feature for when you need to leave home shortly after showering or cooking. When you return, air with just the right humidity will be waiting to greet you.

## The main features

---

Decentralised extractor for rooms with and without windows

---

For use in traditional extract air areas, such as the bathroom, kitchen and WC

---

Modernisation solution that is easy to install

---

Ideal for combination with our decentralised ventilation units

---

Energy efficient EC fan for low noise pollution at high air flow rates

## Set-Components **1**

Type	LA 100 G-A
Product set	LA 100 A

## Technical data

Height	270 mm
Width	270 mm
Depth	136 mm

Set-Components **2**

Type	LA 100 VE
Product set	LA 100 A

## Technical data

Max. power consumption	15.3 W
Power supply	1/N 230 V 50 Hz
Height	260 mm
Width	260 mm
Depth	50 mm
Air flow rate	20/30/40/50/60/100 m <sup>3</sup> /h
